AQUAFIL LBT® Polyester Plant Start-Up

AQUAFIL Engineering GmbH (Berlin, Germany) announces the successful start-up of a Polyester Polycondensation Plant in USA with the new LBT® Technology.

The new LBT® technology is producing first grade polyester quality and reaches a new low benchmark in conversion costs for PET.

Discover our new LBT® technology and contact us.

AQUAFIL Engineering has long experiences in building and designing continuous and batch polycondensation plants for PET polymers for textile, film and bottle grades. The LBT® technology is the further development of the successful AQUAFIL 2-Reactor Polyester Technology which is producing various PET grades since more than 10 years with or without further direct processing of melt.
