Polyamide Recycling

AQUAFIL launches E-Shop for ECONYL®

The platform hosts a wealth of information about sustainability and circularity to strengthen brand and consumer knowledge. The e-shop will host a range of global brands using ECONYL® Regenerated Nylon. For the first time, products made from ECONYL® are available all in one place, and can be filtered by their sustainability values.

It is just started and a lot of other global brands will follow very soon.

For more information, please see www.econyl.com.
